

## **Applications are invited for various positions at Directorate of Urban Land Transport**

### **1. Senior Transport Planner**

No of Vacancies: 1

**Qualification:** Master degree in Transport Planning/ Transport Engineering/ Traffic Engineering or relevant field.

**Required skills:** Experience working on planning, design and implementation of various urban transport projects of varying complexities, including preparation of feasibility reports and detailed project reports. Shall be capable of project planning, project design, implementation and reporting by providing intellectual leadership on technical, financial and all operational aspects of infrastructure projects. Experience in the field of Non-Motorised Transportation is desirable. The candidate should have experience leading team of engineers and planners in executing projects. Proficiency in working with one or more of transport modelling and simulation software such as Cube, VISSIM, etc. is required. Working knowledge in AutoCAD and ArcGIS is desired. The candidate should have good oral and written communication skills and fluency in speaking/reading in Kannada.

**Experience:** 6-8 Years after Mater Degree

**Consolidated Remuneration:** Rs.70,000/- to 80,000/-

### **2. Transport Planner**

**No of Vacancies:** 2

**Qualification:** Master degree in Transport Planning/ Transport Engineering/ Traffic Engineering

**Required skills:** Candidate should have sound understanding of principles of urban transport planning methods and traffic engineering and design principles. Candidate should have demonstrated good oral and written communication skills. The candidate should have good analytical ability with attention to detailing. The candidate should have experience leading team of engineers and planners in executing projects. Working knowledge in AutoCAD and ArcGIS is desired. The candidate should have good oral and written communication skills and fluency in speaking/reading in Kannada.

**Experience:** 3-5 Years after Mater Degree

**Consolidated Remuneration:** Rs. 50,000/- to 60,000/-

### **3. Urban Planner**

**No of Vacancies:** 1

**Qualification:** Master's degree in Urban Design/Urban and Regional Planning.

**Required skills:** Candidate should have sound understanding of urban planning principles and city planning methods. Application of principles of planning, analysis techniques to develop and improve urban areas, understanding of social, economic, and political systems, application of principles of architectural design in order to create communities that are eco-friendly and appealing to its residents. The skills required include oral and written communication, research, documentation and reporting, analytical ability, leadership and team work abilities; proficiency in computer programs, Auto CAD, Photoshop/Coral.
